Strain Description and Effects

Biscotti is an exceptional Indica strain celebrated for its deeply relaxing and euphoric effects. With a high THC content of 28.14%, this strain delivers a powerful experience that can lead to profound relaxation and a soothing full-body calm. Its flavor profile features rich notes of butter, smooth vanilla, and sweet honey, creating an indulgent taste experience reminiscent of freshly baked cookies.

Prominent Terpenes

Caryophyllene	Spicy terpene that may contribute to the strain's complex flavor profile.
Limonene	Citrusy terpene that may enhance the sweet, dessert-like notes.
Myrcene	Herbal terpene that could complement the buttery undertones.

Customer-Facing Note

Indulge in the Biscotti experience: buttery, vanilla, and honey notes paired with deep relaxation and stress relief. Best suited for customers seeking a flavorful, relaxing Indica-style flower experience.

This file is a customer-facing COA summary created from information supplied to OX PACK(TM). It is not a laboratory-issued certificate and should not be represented as an original regulatory lab report. For compliance, retain and attach the original COA/lab certificate from the testing provider and verify all state, age, shipping, and product eligibility requirements before sale.
